五、3/6KV 三层式真空接触器中压柜 VCS盘

3/6KV TRIPLE-DECK TYPE VCS(VACUUM CONTACTOR SWITCH) SWITCHGEAR

南亚自行研发符合GB3906标准之金属铠装型开关箱。

◆箱体尺寸(mm)：

700 x 2350 x 2100(WxHxD)

◆特点：

- 组合式盘体结构，设计标准化，扩充便利
- 内藏式盘内配线及高压部份特殊绝缘处理
确保人员操作及维修安全
- 三层式盘体可控制3个马达负载，结构精巧，
节省空间及建筑成本

The triple-deck type VCS is researched and developed by NAN YA meets the requirement of the Standard GB3906.

◆Dimensions(mm): 700 x 2350 x 2100(WxHxD)

◆Features :

- With assembled type of panel structure, standardized design will facilitate possible future extension.
- As the concealed wiring inside the control panel and special insulation treatment of high-tension portion can guarantee the safety of operation and maintenance.
- Three high-tension motors can be controlled by triple-deck type panel. The compact structure needs only smaller installation space and therefore can save more construction cost.
