

产 品 介 绍

七、400V 低压配电柜 (MB200)

400V LOW VOLTAGE SWITCHGEAR (MB200)

与SCHNIDER公司技合作生产之低压柜，符合 IEC 61439-2、GB7251.12标准之低压配电柜。

◆箱体尺寸(mm)：

800~1500 x 2350 x 1570~1800(WxHxD)

◆特点：

- 模块化设计，标准规格
- 独立单元室隔间，MCCB带电部份均以绝缘板复盖，操作安全性佳
- 特殊设计通风系统，散热效率高
- 结构坚固，保久耐用
- 精巧美观，易与环境搭配

The MB200 Low Voltage switchgear is manufactured by NAN YA under the technical co-operation with SCHNIDER and meets the requirement of the standard IEC IEC 61439-2 & GB7251.12.

◆Dimensions(mm)：

800~1500 x 2350 x 1570~ 1800 (WxHxD)

◆Features：

- Module design, standardized specification.
- The individual cubicles in which the live parts of the MCCB are covered with insulation sheets have high safety for operation.
- Excellent heat dissipation by the special ventilation system design.
- Durable structure.
- Beautiful shape suits to environment.
